

IF YOU HAVE A CHILD THEN READ THIS!

PLEASE PASS THIS TO ANYONE THAT HAS SMALL CHILDREN!!

Parents Beware

Warning for Parents and Teachers

There is a type of crystal meth going around that looks like strawberry pop rocks. It smells like strawberry also and it is being handed out to kids in schoolyards. I'm sure it will make its way around the country. Kids are ingesting this thinking it is candy and being rushed off to the ER in dire condition.

It also comes in chocolate, peanut butter, cola, cherry, grape and orange. **It looks just like pop rocks.**

Please instruct children to not accept candy that looks like this even from a friend and to take any that they may have to a teacher, principal, etc.

Pass this around it could save some family a lot of heartache! They call it strawberry meth or strawberry quick.
